Brief Mention of Local Incidents.

Among the visitors to our County Fair, we were gratified to meet with our excellent friend, Mr. J. T. Whitman, of the Dalton (Ga.) Citizen, who was on a brief visit to relatives in this

. We regret to learn that little Lizze Evins, the only daughter of the late Dr. Thos. A. Erins, died at Spartanburg on last Saturday morning, of membranous croup, after a brief illness, in the 5th year of her age. She was a bright, intelligent and affectionate child, and her death has brought fresh sorrow to the hearts of those who were bereft of a husband and father only one short year ago.

An alarm of fire was given at ten o'clock on last Saturday night, and brought hundreds of our citizens to the public square, when it was ascertained that the alarm was made in consequence of the thoughtlessness of some wagoners, encamped on the vacant lot at the fork of the Pendleton and Greenville roads, who of which reflected at a great distance.

We are informed that a terrible accident occurred at Greenwood, in Abbeville county, on of water resulted in the explosion of the boiler, and the engineer, a colored man named Robinson, was instantly killed, and another negro had a leg broken. Mr. Bailey was in the second story of the building, directly above the engine; and was thrown violently to the ground among the rubbish, but was extricated by his friends in a short time, and saved from a horrible death. His injuries were not serious, and he was doing very well on Monday afternoon.

It is customary for persons engaged in the same calling, profession or occupation to extend the right hand of welcome to strangers and sojourners in their midst, and we believe this practice holds good between officials, when one invades the bailiwick of another. Our polite and accommodating Sheriff, mind- of the Brinly, and a medal was awarded. ful of the comity due to those from abroad, generously tendered the hospitalities of the McGukin House to the Sheriff of Abbeville county, on last Friday night, and gave that dignitary an upper room is the stately edifice over which he presides, farnishing the gayest company for the entertainment of his distinguished guest.

Sixth Annual Fair in Anderson.

The anticipations and lively expectations annually produced by the recurrence of our County Fair have been realized, and the pleasant re-union of our good people is now numbered among the things that were. The hundreds and thousands who were in attendance are back again to their homes, and are recountmg by the fireside the numerous incidents of much attraction, while the judges proceed to drainage, thereby promoting the health of the Pair of Harness Horses, open to pleasing memory which transpired during the festive occasion. The meeting of old friends and the making of new acquaintances, are intermingled with the story of exhibition proper, which is dilated upon with exceeding zest, and in a manner illustrative of each one's particular fancy, predilection or prejudice. But it is our business to announce the results of the Eair, and to portray the exhibition as it really was, which we propose to do very briefly, for the the sixth annual Fair is ended. reason that the large majority of our readers were either present or have enjoyed the description from some of their neighbors.

But the most beautiful array yet brought to notice is the needle and fancy work department, where upwards of one hundred specimens of ladies' ingenuity and patient skill are to be found. We have never beheld so much exquisite taste, and it is well that the decision here is not left to our judgment, for we would gather up the premiums of the Association, and deliver them promiscuously to the exhibitors in this department.

Surrounded by all this beauty, we find Hiram Tusten, of Abbeville, exhibiting a patent flybrush of his own invention, which is an ingenious contrivance. Tusten's brush is simple, easily managed and quite effective.

Many other articles deserving special mention we are compelled to omit, for want of space, but upon passing to the out-door exhibihad made a blazing fire out of brush, the light | tion, we are reminded of several novelties on the grounds, among which the farm-gate is most prominent. This gate is exhibited by our old army friend, Capt. John H. H. Bailey, of that place. The scarcity Carolina. It is simple, cheap and easily operated; has no hinges to get loose and cannot be made to swag, and stock of all kinds are unable to open it.

At the well near by, we find an improved well-fixture, exhibited by Mr. L. P. Guffin, of Abbeville, which is far superior to the ordinary method of drawing water with two buckets.

The exhibition of plows is quite creditable too. The Watt plow is exhibited by S. Bleckley, Esq., of this town, and is very popular among the farmers. Brinly, Miles & Hardy, of Louisville, Ky., the manufacturers of the famous Brinly plows, have honored the Anderson Fair with a splendid array of their several patterns, shipped directly from the manufactory for this purpose. The judges decided in favor

The horses are not quite so numerous, but it is the general remark that finer stock is on exhibition.

The Fair closes on Thursday at a late hour in the afternoon, and when the gates are again thrown open on Friday morning, there is a great rush of people from every portion of the surrounding country, and the scene is enlivening and exhilerating. It is estimated that between twenty-five hundred and three thousand people are in attendance. The programme of the day is inaugurated by a grand display of the horses, and around the centre stand there is ettach the blue ribbons to the favorite animals

The Knights assembled in front of the Court House, dressed in full costume, at one o'clock await the tilt. All was expectation and excitebe, and many a sly glance, suppressed smile or timid blush shewed that some of the young ladies were as much interested as the Knights themselves. When all was ready, the judges called out the first name for the tilt, he rode tively few, as the majority would await the forward to the starting point, and when the signal was given, he dashed off at full speed, with lance poised, and eye fixed on the rings. THE BALL.

According to the invitations and advertisements, all the Knights and many invited guests assembled at the Waverly House, for the coronation and ball. At nine o'clock silence was commanded in the ball room, and the Captain of the Knights, taking the crown in hand, made a short address to the ladies and gentlemen, and handing it to Mr. J. L. Orr, jr., congratulated him on being the most successful competitor, and having the privilege of crowning the Queen of Love and Beauty. Mr. Orr accepting the crown, thanked the speaker for his kind words, and made a short and graceful speech to the lady elect, and the ladies and gentlemen present, and closed by placing the crown on the head of Miss Annie Gaillard, pronouncing her Queen of Love and Beauty, and a fit representative of Rebecca, who was crowned by Ivanhoe. Miss Gaillard made a handsome and graceful response, and though necessarily short was very appropriate and beautiful. Mr. Pegg, in a few well weighed remarks, expressed the pleasure it afforded him to place the wreath of the first Maid of Honor on a brow that so richly deserved it, and placed it on Miss Kate Shields. Mr. A. G. Fretwell crowned Miss Sallie Jones as second Maid of Honor. Mr. Laughlin, taking his wreath, made a very well arranged, knightly and gallant speech, pointing out in a beautiful simile the present with the past ideas of chivalry, and placed the wreath of the third Maid of Honor on the head of Mis, Mary Wilhite, who thanked him with an ease and grace that charmed all.

After the coronation, the music struck up, dancing commenced, and all went on "as merrily as the tinkling of a marriage bell," until one o'clock when supper was announced, tables arranged, and all sat down to a substantial and bounteous supper, which was duly appreciated and dispatched. We have never seen a ball carried on with more order or propriety, and many thanks are due to the managers for their care and success.

Public Meeting.

ANDERSON, S. C., Nov. 4, 1873. A public meeting of citizens was held in the Court House this day, in accordance with previous notice, to consult in regard to drainage of swamp and bottom lands, as a means of restoring the health of the country, and to ask | Merino Buck T C Kilbourne the interposition of the Legislature in devising wise and efficient laws upon this subject.

The meeting was called to order by Capt. J Y. Fretwell, who moved that Dr. O. R. Broyles, Sr., be elected Chairman, which was carried.

Dr. Broyles, on assuming the Chair, explained the object of the meeting, and commented upon the importance of giving immediate and general attention to the matter of country and accelerating its material prosperity by bringing into cultivation large bodies of land, now lying idle and ur productive. He

On motion, Mr. James A. Hoyt was requested to act as Secretary.

Maj. T. H. Russell, after a few prefatory remarks, offered the following preamble and

WHEREAS, the extensive sickness prevailing in many portions of this County, in the form of malarial fevers, and the numerous deaths resulting therefrom, has been such as to arrest public attention, and to induce efforts to seek for some adequate remedy; AND WHEREAS, it is believed that the sobbed and unhealthy condition of large bodies of bottom lands, lying on our inland streams, is the fruitful source of these malarial fevers. Be it therefore

Resolved, That the general good health of this region of country is a matter of the first importance, and that no sacrifice is too great that may be necessary for the accomplishment of such a desirable result.

Resolved. That the drainage of the large bodies of wet bottom lands on our streams is an indispensable step, and commends itself to the better judgment of all our citizens, both for its sanitary advantages and as calculated to add largely to the productive resources of our

County.

Resolved, That we commend the subject of drainage to the consideration of the Legislature now in session, and request the Chairman of this meeting to appoint a committee of twenty-one citizens, whose duty it shall be to | Pair Game Chickens

Hon. J. P. Reed seconded the resolutions, and addressed the meeting in an able and interesting speech, giving the result of his observations as to the causes producing malarial diseases, and detailing numerous incidents of the wide-spread calamity, which has so severely injured the reputation of this section for health. which was once the proudest boast of our people. He likewise alluded to the difficulties attending a correct solution of this question, but expressed the belief that adequate legislation might be procured, without danger of infringing upon the private rights of any citizen

or constitutional limitations of any kind. Dr. W. C. Brown and Gen. J. W. Harrison also expressed their views on the subject, in the main agreeing with the first speaker, and advocating the adoption of the preamble and resolutions.

The resolutions were then put to the meeting, and were unanimously adopted.

The Chairman appointed the following gentlemen, to constitute the Committee authorized by the third resolution, viz: W. H. Trescot, J. P. Reed, J. W. Harrison, Dr. G. H. Symmes James A. Hoyt, Dr. O. R. Broyles, jr., G. W. Maret, J. Y. Fretwell, J. P. Sitton, Wm. Perry, E. J. Earle, C. S. Williford, Dr. D. S. Watson, ran, B. F. Whitner, John Martin.

On motion, the newspapers of Anderson, Oconee, Pickens and Greenville were requested to publish the proceedings of this meeting.

On motion, the meeting adjourned. O. R. BROYLES, SR., Chm'n. JAMES A. HOYT, Secretary.

DOR TWENTY YEARS the standard of excellence throughout the world, the Wheeler & Wilson Sewing Machine, with the

latest improvements, stands unrivalled.

If you think of buying a Sewing Machine, it will pay you to examine the records of those will pay you to examine the records of those now in use, and profit by experience. The Wheeler & Wilson stands alone as the only LIGHT RUNNING MACHINE, using the Rotary Hook, making the Lock Stitch, alike on both sides of the fabric sewed. All shuttle machines waste power in drawing the shuttle back after the stitch is formed, bringing double wear and strain upon both machine and operator; hence, while other machines rapidly wear out, the Wheeler & Wilson LASTS A LIFE-TIME, and proves an economical investment. Do not be-lieve all that is promised by so-called "cheap" machines; you should require proof that years of use have tested their value. Money once thrown away can not be recovered.
